Combining the essence of stone pavers with the performance and versatility of porcelain.

WHY USE THICK PORCELAIN TILE (2 CENTIMETER)?

- No need to seal
- High abrasion and stain resistance
- Withstand extreme temperature changes (-50°C to +60°C)
- Durable – with high breaking points and wear resistance
- Less than 10lbs per sq. ft. – ideal for rooftop applications
- No efflorescence
- Always “true to size” resulting in quick and easy installation
- High COF – good for traffic areas with slip concern
